## PROJECTS

### SortOut

Created SortOut, a sorting visualizer to visualize classic sorting algorithms such as bubble sort, selection sort, insertion sort and merge sort. The main objective of this project was

to learn and have a firm grip on how algorithms work. It's designed like a music player where one can pause/play or forward/backward visualizer.

<https://github.com/RajKanani1206/SortOut>

### **Colorify Console**

A JavaScript Library to colorify your console log. The main objective of this project was to make it easier/quicker to find console logs during development.
